Seeking outstanding Level C and D Academics in Industrial Design

If you are an outstanding, established academic, who is actively seeking to enhance your research, passionate about excellence in teaching, and looking to extend your national and international leadership in your field at a university that values partnering, this is a unique opportunity to be part of the inaugural cohort of **Enterprise Fellows – Level C and D Academics** at UniSA, Australia's University of Enterprise.

ABOUT THE ROLES

Enterprise Fellows will have a majority research focus and will lead and deliver high quality research outcomes that translate to impact for our partners and society. They will be active members of our Academic Units, research centres or institutes, contribute to an exceptional teaching and student experience and link their research to course delivery and undergraduate and postgraduate program outcomes.

Industrial Design is part of **UniSA Creative**.

As the only South Australian university ranked for Art and Design¹, our Industrial Design discipline is highly engaged across both research and teaching, solving complex design challenges for industry and communities. Our Industrial Design discipline has collaborations with the **Australian Research Centre for Interactive and Virtual Environments**.

Industrial design at UniSA is based at our City West campus, located in the heart of Adelaide's thriving creative cultural hub.

UniSA is looking for Enterprise Fellows in Industrial Design – Level C and D academics to join this growing area of research importance for the University, and to enhance our move into areas such as health and defence, where there is strong partner interest.

Enterprise Fellows in Industrial Design will bring creative, critical and professional lenses to research problems, and will possess excellent interdisciplinary and translational skills. They will have strong national research profiles and emerging international profiles. Enterprise Fellows in Industrial Design will also possess strong

leadership skills, building and mentoring research teams for collective success across UniSA Creative and UniSA.

The workload allocations for these positions will be negotiated on an individual basis. It is intended that these positions will be Research Academic positions with a teaching allocation initially and over time will transition to a balanced teaching and research workload.

Preferred areas of research and practice expertise include:

- Industrial design;
- Product design;
- Human-centred design and interaction;
- User interaction (UI); and
- User experience (UX).

Enterprise Fellows in Industrial Design will be expected to participate in existing UniSA research centres and activities, including:

- **UniSA's Australian Research Centre of Virtual and Interactive Environments (IVE);**
- **UniSA Creative's Studio for Complex Confined Human Environment Design (SCHED); and**
- **UniSA's Creative People Products and Places Research Centre (CP3).**

HOW TO APPLY

For further information about the position or the recruitment process go to unisa.edu.au/enterprisefellowsrecruit, contact the UniSA Recruitment Central Team on **+618 8302 1700** or email recruitment@unisa.edu.au using job reference number **2889**.

Applications close: Monday 31 May at 11:30pm (Adelaide time)

We are committed to increasing the diversity of our people, so we strongly encourage female applicants, people with a disability and/or Australian Aboriginal Peoples to apply.
